

KaosPilots Team 13

Week 03

Teambuilding, Teamculture and Learning

Learning Goal The purpose and the goal with the week is for the students to reflect upon the present team- and learning culture at Team13 - to set the social contract and initiate the needed initiatives to follow up upon this. In addition the goal is for the students to get a nuanced understanding and a balanced picture of group processes and how to reflect and act on this - and work with this.

By the end of the week the team will be working with Team11 and Team12 – focusing on Communication and how to work together in the future.
